Bop Dat!

Nate Diamond
Zachary Meyer

Goals / Vision

- Create revolutionary smart-phone application inspired by the household kids' game Bop-It!
- Change the paradigm of mobile accelerometer based games
- Not violate any intellectual property laws
- Create an artistically simple, aesthetically pleasing app

Description

- Easy to use application for people of all ages
- Clean, minimal user interface
- 5 actions:
  - Push Dat!
  - Yank Dat!
  - Flip Dat!
  - Tap Dat!
  - Shout Dat!

Deliverable

- An android APK file which can be installed onto a smartphone and run to play a game of Bop Dat!
- At least two activities, one for the menu, and the other for the game environment
